

Black Tree School will offer you opportunities to transform your life, facilitate personal growth, and connect with your inner self.

All You Need Lies Within You.

Black Tree School

Two very different spiritual pathways overlap in the teachings of the school. Mark is a healer, teacher & visionary. Eunice is also a teacher and an Advanced Crystal and Energy healer. She is a trained Angel Tarot card reader.

We are both Pellowah practitioners and teachers. This is a new form of healing that channels healing energies and gives the opportunity to change your perspective on life and expand the consciousness. Pellowah is new and very different. There are few practitioners in Europe able to provide this healing. Pellowah is believed to extend your healing range. More information available on request.

We have significant common ground in the way that we see and interact with the spiritual and energetic multi-verse.

It's our mission to develop a new form of healing next year and train others here in Portugal. Mark is channeling information that will be developed into the curriculum of the school and writing a book.
